Become a mentor

A mentor has the power to help change a young person's life.

We're working with a diverse group of 16-24 year-olds with fresh ideas, experiences & perspectives to bring to our industry. They just need some guidance & support in the next step of their journey into a career in tech. Can you help?

Could you be a mentor for 5 months?

You'll join our mentor support network & receive full training & support

If you think you can help or want to find out more, get in touch with emma@manchesterdigital.com
